## Warning

No subscription can be received on the basis of the financial statements alone. Subscriptions are only valid if made on the basis of the current prospectus, accompanied by the latest annual report and the most recent semi-annual report, if published thereafter.

The prospectus, the statutes, the annual and semi-annual reports are made available to the shareholders at the depositary bank and at the Company's registered office as well as at the local sales offices or main client servicing contacts identified in this report. They will also be sent free of charge to anyone who so requests.

The information given in this report is for reference purposes only. It is not a guide to future results.

Only the English version of the present Annual Report has been audited by the Réviseur d'entreprises agréé. Consequently, the Audit Report only refers to the English version of the report; other versions result from a conscientious translation. In case of differences between the English version and the translation, the English version shall be the authentic text.

# Management's report

## Economic context

The COVID-19 pandemic continued to dominate global economic developments in the fourth quarter of 2020. COVID-19 infection growth picked up again, forcing authorities to implement new lockdown measures. Demand continued to recover in the US and stabilized in the Eurozone. Growth in consumer goods spending has held up well, largely due to consumers switching away from services. Corporate investment growth in the US and Europe has been affected by the second-wave virus uncertainty. Second-round effects on growth via the financial sector and unemployment have been mitigated by policy support.

Two factors played a crucial role for financial markets in the fourth quarter: the positive reaction to the election of Democrat Joe Biden as US president and the better-than-expected efficacy data for multiple vaccine candidates. Although COVID-19 infection figures continued to rise during November, investors opted to look past the second wave towards a potential return to normalcy.

Policymakers remained committed to limiting the economic damage of the renewed lockdowns. Fiscal and monetary policy remain accommodative, although in the US much depends on whether the new Biden administration can deliver on the required fiscal stimulus. European leaders took an important step in December when the new seven-year EU budget and the EUR 750 billion Recovery and Resilience Fund were finally approved by all the heads of state or government. Most national governments in Europe continued to extend their existing corona-related support measures to limit bankruptcies and unemployment after the latest mobility restrictions.

A week before the 31 December deadline, the UK and the EU struck a deal on their post-Brexit relationship. The two parties reached a compromise agreement on the key issues of level-playing-field regulations, dispute mechanism and fisheries. Northern Ireland will stay in the EU single market for goods and will continue to enforce EU customs rules at its ports, including for exports from the rest of the UK. This will prevent a hardening of the land border with the Republic of Ireland while creating a new "sea border" with the rest of the UK. All in all, the deal removed much of the remaining uncertainty, but how the relationship will evolve remains to be seen. Frictions and implementation issues are likely.

The first quarter of 2021 was dominated by the slow and uneven path towards economic normalization. In the US, many states removed all virus-related mobility restrictions, enabling a strong economic rebound. In contrast, many Eurozone countries are still under lockdown with no indications that infection rates are decreasing.

Policymakers on both sides of the Atlantic made it clear throughout the quarter that they were committed to providing support for as long as it takes. This was most apparent in the US, where the Democrats' victory in the Georgia run-off elections in early January paved the way for the passage of a USD 1.9 trillion stimulus bill in March.

The normalization process gained traction and became more tangible in the second quarter with the gradual reopening of economies. The recovery was enhanced by fiscal support, accommodative monetary policy, strong earnings growth with positive guidance, and vaccination roll-outs in the developed economies. Inflation data surprised to the upside.

At the start of the third quarter of 2021, most of the deeper fundamentals of developed market (DM) economies were conducive to a prolonged period of above-trend growth. Household balance sheets looked very healthy due to a large pile of excess savings built up since the spring of 2020; credit was also flowing freely, and business profitability had rebounded strongly from the depths of last year. Business and consumer confidence were well above their long-term averages. This suggested consumers were willing to spend a fair share of their excess savings while businesses were keen to increase capex spending. The expansionary mood of the business sector was also expressed in a very strong demand for labour, which acted as another pillar of support for consumer spending and confidence. Monetary and fiscal policy support was set to remain broadly in place for near future.

Despite this positive fundamental starting point, the third quarter was characterized by data that disappointed somewhat. The most important cause was a multitude of supply bottlenecks in product, service and labour markets, which restricted real activity and caused prices and wages to rise. Another factor was the rise of the COVID-19 Delta variant, which worsened several supply constraints, for instance by causing additional production restrictions in emerging market (EM) Asia and preventing people from re-entering the workforce due to health concerns. The Delta variant probably weighed on business and consumer confidence. The inflation spike resulting from the supply constraints acted as an additional headwind for confidence, which may be why consumer confidence suffered more in the US than in Europe and Japan. Business confidence on the whole remained solid.

## Management's report (continued)

### Monetary policy

Both the US Federal Reserve and the ECB maintained their very accommodative stances in the fourth quarter of 2020 and even added new stimulus by extending and increasing their asset purchases. They also strengthened their forward guidance again, making clear that they want to keep financing costs for corporates and sovereigns low for as long as needed.

The ECB announced plans in the first quarter of 2021 to step up bond purchases under its Pandemic Emergency Purchase Plan (PEPP). Inflation took centre stage in the latter half of the quarter, which drove bond yields steadily higher in late February. This put some pressure on the performance of risky assets. While the Fed did not express concern about higher yields, the ECB is more worried due to lower growth potential and stronger deflationary forces in the Eurozone.

One of the key events of the second quarter was the outcome of the June meeting of the Federal Open Market Committee, where the US central bank made a hawkish pivot, meant to manage inflation expectations.

In the third quarter of 2021, clear differences began to emerge in the way the four biggest DM central banks navigated the slightly stagflationary economic environment that reopening dynamics and supply bottlenecks had created. The Bank of England was the most hawkish, as it was considerably more worried about the prospect of persistent above-target inflation, labour shortages, wage growth and inflation expectations than about the soft patch in growth. The Federal Reserve took a considerably more patient approach. Tapering would start in November and finish by the middle of next year. Most members of the Fed's FOMC believed that the rate lift-off decision was very much separate from the tapering decision as much more stringent criteria apply, with a first rate hike in 2023. Meanwhile, the majority of the ECB's governing council was clearly prepared to look through the supply constraint-driven inflation spike and believed policy should remain very accommodative for quite some time to lift underlying inflation towards the target. Lastly, the Bank of Japan has kept the 0-10 year yield curve in the same place since 2016 and appeared likely to continue to do so for the foreseeable future.

### Fixed income markets

In the fourth quarter of 2020, US 10-year bond yields rose from 0.68% end September to 0.91% end December. German 10-year Bund yields ended the quarter a few basis points lower at -0.57%. The Eurozone peripheral bond market showed some volatility in the fourth quarter, mirroring the general risk sentiment, but ended the quarter with tighter spreads versus German Bunds.

Government bonds performed rather poorly during the first quarter of 2021, mainly due to the improving outlook for US economic growth. The run-off elections in the US state of Georgia gave the Democrats control of the Senate, which facilitated the passage of an additional USD 1.9 trillion COVID-19 relief plan. In addition, the path towards economic recovery became more tangible due to the rapid vaccine roll-out in the US. Against this backdrop, the US 10-yr bond yield rose from 0.91% at the end of 2020 to 1.75% at the end of March 2021. The German 10-yr bond yield rose from -0.58% to -0.33% in the same period.

The rise in bond yields was initially mainly driven by a rise in inflation expectations. However, real rates also started to rise sharply later on, despite central bank comments that monetary policy is not even close to becoming less accommodative. This rise in real bond yields put some pressure on the performance of risky assets during the quarter. As a result, most credit spreads and Euro sovereign spreads versus Germany did not tighten during the quarter. The main exception was the tightening of Italian government bond spreads versus Germany, as markets expressed confidence in the new Draghi-led government.

In the second quarter the spread between US and German yields narrowed, which we consider temporary. Global high yield and high-grade spreads tightened. Lower US yields fuelled the search for yield and formed a tailwind, as did the rapid improvement in corporate profitability.

Safe Treasury yields started to rise in August 2021, prompted by more hawkish central banks and inflation data that continued to come in above expectations. In credit, high grade spreads were stable whereas high yield spreads widened.

## Management's report (continued)

### Equity markets

In the fourth quarter of 2020, global equities rose 9.3%, putting their full-year gain at 6.9%. The vaccine announcements triggered a major rotation in equities in November and December. Technology and communication services underperformed the more value-driven sectors like financials and energy. The typical defensive sectors like healthcare, utilities and consumer staples were the laggards. On a regional level, the more cyclical and value-driven markets like Europe, Japan and non-Asian emerging markets outperformed growth-heavy markets like the US.

The year 2021 began well, with several hot political issues rounded off at the end of 2020, including Brexit, the US elections, and the approval of the European multi-year budget. The Democrats' double victory in the Georgia Senate runoff gave them the Senate majority, reducing fiscal uncertainty and strengthening President Joe Biden's ability to implement his economic plans. Investor optimism appeared undented by vaccination setbacks, including delivery problems and the discovery of more contagious strains. Technical pressure developed towards the end of January as retail investors pooled their cash to bet against some of the biggest shorts on the market. This led to an enormous short squeeze and roiled equity markets.

In regional terms, non-US markets continued to outperform the US in early January, while emerging markets took the lead, driven by gains in Asian markets. The second half of the month brought more convergence. The Eurozone ended at the bottom, hurt by a slow start to the vaccination campaign, further mobility restrictions, and a less-than-perfect ECB communication policy that left some ambiguity on the future policy path. A similar picture was visible in sectors: a strong start for commodity cyclicals and financials, coupled with weakness in defensive sectors and big tech. Sectors converged towards month-end. Unfortunately, this was the "wrong" kind of convergence, with the outperformers joining the underperformers. The dislocations caused by activist retail investors played an important role here.

Global equity markets moved higher again in April. First-quarter corporate earnings were strong. In the US, 85% of companies did better than expected, with an average earnings beat of over 25%. The absolute earnings growth number was well above 50%. In the Eurozone, the results were similarly positive. The guidance was also optimistic and is reflected in an upward revision of the next quarters' earnings consensus.

Regional equity performance in the second quarter was mixed. The US, supported by a renewed interest in growth sectors in the second half of the quarter, was the best-performing region, followed closely by Europe. Japan was the laggard, despite being a play on the global recovery. The stall in vaccination rates probably played an important role in explaining the underperformance.

Emerging market equities also underperformed in the second quarter, with a huge divergence between weak Asian markets and strong non-Asian markets. The strength in oil and industrial metal prices, and the strength of commodity currencies, are surely among the reasons. Another reason is the struggle with the pandemic in several emerging markets in Asia, which is denting their growth outlook and creating a clear headwind for EM.

Emerging markets continued to lag in the third quarter of 2021 due to the pandemic. Low vaccination rates and a zero-tolerance policy did not help growth. China had its fair share of problems. These were primarily linked to Evergrande, the giant property developer that ran into serious financial troubles. In addition, power outages are a risk to China's growth. Some headwinds were self-inflicted, such as the regulatory scrutiny of the technology, education and gaming industries. Downside growth risks were building and policy easing was relatively modest. Outside of China, policy tightened on balance.

In developed markets, Japan was the top performer. The announcement that Prime Minister Yoshihide Suga would step down and be succeeded by Fumio Kishida increased the probability of the Liberal Democratic Party staying in power after the Lower House elections scheduled for November. Historically, Japanese equities perform well in pre-election periods.

The sector performance was not consistent throughout the third quarter, apart from the energy sector, which was driven by the uptrend in underlying commodity prices. Over the summer, the best performing sectors were technology, communication services and financials. But in September, markets moved to a more value tilt in response to the changing trend in bond yields. The high growth sectors like technology and communication services, usually negatively correlated with bond yields, moved from top to bottom in the performance rankings.

## Management's report (continued)

### Outlook

The economic normalization continues, although at an uneven pace following the long COVID-19 related shutdowns. Further severe lockdowns look unlikely in most Western countries. Supply chain bottlenecks are blurring the near-term macro visibility. Inflation numbers have risen sharply, but we see this as transitory. On the policy side, the Federal Reserve will start tapering soon. In the medium term, the sustainability of the recovery will depend on virus developments, the temporary nature of high inflation, the willingness of policymakers to continue the accommodative policy mix, as well as the release of excess savings and private investments.

Due to a lack of profitable alternatives, investors continue to embrace risky assets and push markets higher. There is more reluctance than earlier in the year when this behaviour was fully justified based on economic, corporate and policy fundamentals. Volatility is rising. A new cyclical bounce in markets in the fourth quarter is possible. But it looks like challenges will continue to rise over the coming quarters as data normalize and policy moves away from a state of emergency. In addition, Chinese growth and policy need close monitoring.

### COVID-19 and Business Continuity Plan

After a volatile second quarter of 2020, the global economy as a whole recovered quite strongly in the third quarter from the depths of the COVID-19-induced recession. Starting from Q4 2020, the COVID-19 second wave was hitting most of the developed markets, leading to tighter restrictions and higher market volatility. The subsequent news on vaccine development in November were later followed by spreading vaccination roll-outs in Q1 and Q2 throughout different parts of the world. As vaccination rates were gaining traction, so was the move towards economic normalization and reopening, which pushed down volatility rates while the leading equity indexes increased up to their all-time-highs. On the other hand, bond yields increased over the last year, which was due to rising inflation. While economic normalization continued in Q3, there was a rising volatility in Asian real estate markets, as several Chinese property developers defaulted, leading to worries of spillover effect, mainly across the emerging markets.

NN IP has an active risk and portfolio management process, where on a daily basis market and liquidity risk are being assessed and where needed portfolio adjustment are made. Besides this, there is continuous monitoring on the compliance with both the prospectus and regulatory guidelines. Where needed mitigating actions are taken. The current processes are considered to be effective to ensure continued effective portfolio management.

NN IP has activated the Business Continuity Plan "BCP". The IT infrastructure has been upscaled enabling the majority of staff to work from home having access to all systems. NN IP continues to manage the portfolios under the circumstances and no material negative impact is experienced on our operational control framework. There is no reason the current crisis has any negative impact on the viability of either the fund or the manager.

We continue to mainly work from home with working in the office when needed. We do not experience any material disruptions in our processes. As a result from the COVID-19 pandemic we expect that a combination of working from home and working from the office will become the standard.

## Management's report (continued)

### Market developments

NN IP's portfolio management teams are continuously monitoring and evaluating market developments, asset side liquidity and portfolio flow data, to ensure a timely response to the changing market environment. They do so with support of a team of cross-functional specialists. The team regularly tests the effectiveness of measures in place to manage volatility in transaction costs. They subsequently implement actions to safeguard interests of clients. Currently, the specific COVID-19 monitoring is no longer in place. A period of further volatility in the financial markets relating to COVID-19 cannot be ruled out. Should volatility increase in the future, management will adjust the monitoring activities performed to respond to this as necessary.

### Environmental, Social and Governance (ESG)

Responsible Investing (RI) lies at the heart of NN Investment Partners' (NN IP's) investment beliefs. Our Responsible Investing framework, includes the underlying RI beliefs, the four building blocks and the result: our ESG-integrated, Sustainable and Impact investment strategies<sup>2</sup>. We are since 2008 signatory to the Principles for Responsible Investment (PRI).

We believe that integrating environmental, social and governance (ESG) factors enhances the decision-making process. Taking financial and non-financial information into account in our portfolios better equips us to optimize short- as well as longer-term risk-adjusted returns. Consistent ESG integration enables us to identify risks and opportunities and helps us unlock potential value, in addition to achieving the positive societal and environmental effects that we aim for as a responsible investor.

<sup>2</sup>See [nnip.com](http://nnip.com) for more information.

## Management's report (continued)

As share- and debtholders, we are aware of our role and responsibility to drive change through engagement and voting. Constructive and regular dialogue with investee companies on ESG factors enables us to help them tackle a wide range of issues.

We determine our eligible investment universe by excluding controversial activities such as controversial weapons and oil sands. In the reporting period no new restriction criteria were being adopted regarding business activities.

With our broad range of dedicated sustainable investment funds and solutions, we help our clients achieve their financial and sustainability objectives. In the reporting period we launched additional dedicated sustainable funds on the market. NN IP is actively involved in a number of international sustainability initiatives. By taking an active role in these partnerships, we can strengthen the impact of our efforts.

### Article 8 funds

The Fund, as per its classification as an Article 8 product, applied the NN IP Materiality Framework to define E and S criteria, which included climate change, resource use & pollution, product responsibility and human rights & human capital<sup>3</sup>. Environmental and social innovation and opportunities were also taken into account in assessing the business model of the issuer. During the year, and, as per defined into our NN IP Responsible Investment Policy, we monitored the abovementioned characteristics in line with the investment strategy defined into the prospectus. The prerequisite before investing consist in the application of the norms-based responsible investment criteria and adhered to the NN IP Responsible Investing Policy and Exclusion List of the Management Company, binding elements for the selection process of the investments.

### Article 9 funds

#### Green bonds funds

The NN IP green bond strategies manage green bonds, issued by supra-nationals, sub-sovereigns, agencies and corporates pursuing policies of sustainable development while observing environmental, social and governance principles. In line with the definition of 'green bonds', the funds invested in bond instruments where the proceeds were applied to finance or refinance in part or in full new and/or existing projects that have a measurable positive impact on the environment. The funds applied the Management Company's norms-based responsible investment criteria, along with the NN IP Responsible Investing Policy and Exclusion List. These exclusion filters related to both activities and behaviours. Issuers with serious and structural issues concerning ESG controversies were excluded. The funds also adhered to the Green Bond Principles as formulated by the International Capital Market Association.

As the green bond strategies all have sustainable investment objectives, more stringent restrictions were applied to investments in these issuers, including those issuers with involvement in activities related to gambling, weapons, adult entertainment, fur & specialty leather, Arctic drilling and shale oil & gas.

<sup>3</sup> See [nnip.com](http://nnip.com) for more information.

## Management's report (continued)

Due to the characteristic of the green bond funds to invest in projects beneficial to the environment, the overall sustainability-related impact of the strategy used was annual Green House Gas Emissions Avoided expressed in in tons CO<sub>2</sub> as a result of more efficient energy deployment.. This was reported on a monthly basis.

Greenhouse gas emissions are measured in carbon dioxide equivalent (CO<sub>2</sub>e). This metric signifies the amount of CO<sub>2</sub> for any type of greenhouse gas with the equivalent global warming potential. Avoided emissions can come from a broad range of projects. These could be renewable energy plants that help reduce fossil fuel usage, or public transportation that offers an alternative to private cars. Other projects may include "green" buildings that limit the use of energy and water to reduce their environmental impact, or optical fibre technology that improves energy efficiency.

The following funds score as follows on these indicators per September 30, 2021<sup>4</sup>:

Name fund	Annual Green House Gas Emissions Avoided (tons CO <sub>2</sub> per portfolio – 30/09/2021)	Annual Green House Gas Emissions Avoided (tons CO <sub>2</sub> per 1 million invested - 30/9/2021)
NN (L) Green Bond	343,362	245
NN (L) Green Bond Short Duration	54,745	237
NN (L) Corporate Green Bond	171,662	331
NN (L) Sovereign Green Bond	34,723*	202*

\*The fund was launched on March 31, 2021 and the impact has been estimated based on twelve month period to September 30, 2021.

### Impact equity funds

The NNIP impact equity funds have invested in companies that actively contribute to solving three global challenges: ensuring the health and well-being of people, protecting the planet we live on, and strengthening access to financial prosperity.

The impact equity funds applied the Management Company's norms-based responsible investment criteria, along with the NN IP Responsible Investing Policy and Exclusion List. These exclusion filters related to both activities and behaviours. Issuers with serious and structural issues concerning ESG controversies were excluded.

As the funds have impact investment objectives, more stringent restrictions were applied to investments in these issuers, including those issuers with involvement in activities related to gambling, weapons, adult entertainment, fur & specialty leather, Arctic drilling and shale oil & gas.

In order to measure the overall sustainability-related impact of the funds, the exposure to SDG's were taken into account. Per impact fund, different SDG's were assessed, that are linked to their specific impact goal. This exposure is reported on a monthly basis.

<sup>4</sup> See nnip.com for more information.

## Management's report (continued)

The following funds score as follows on these indicators per September 30, 2021 (the relevant SDG's have been completed for each sub-fund<sup>5</sup>):

SDG	NN (L) Health & Well-being (exposure to SDG)	NN (L) Climate & Environment (exposure to SDG)	NN (L) Smart Connectivity (exposure to SDG)	NN (L) Global Equity Impact Opportunities (exposure to SDG)
SDG 1 - No poverty	23%			12%
SDG 2 - Zero Hunger	15%	7%		5%
SDG 3 - Good health and well-being	43%			21%
SDG 4 - Quality education	6%			2%
SDG 6 - Clean water and sanitation	13%	20%		10%
SDG 7 - Affordable and clean energy		28%		10%
SDG 8 - Decent work and economic growth			38%	16%
SDG 9 - Industry, innovation and infrastructure		18%	17%	8%
SDG 10 - Reduced inequalities			26%	6%
SDG 11 - Sustainable cities and communities			7%	2%
SDG 12 - Responsible consumption and production		15%		1%
SDG 13 - Climate action		12%		3%
SDG 16 - Peace, justice and strong institutions			9%	2%
SDG 17 - Partnerships for the goals			3%	2%

### Sustainable funds

The sustainable funds have invested in companies that have sustainable business models. Typically, these are companies that can create value sustainably by offering sustainable solutions, displaying sustainable behaviour and possessing a sustainable competitive position.

The sustainable funds applied the Management Company's norms-based responsible investment criteria, along with the NN IP Responsible Investing Policy and Exclusion List. These exclusion filters related to both activities and behaviours. Issuers with serious and structural issues concerning ESG controversies were excluded.

As the funds have impact investment objectives, more stringent restrictions were applied to investments in these issuers, including those issuers with involvement in activities related to gambling, weapons, adult entertainment, fur & specialty leather, Arctic drilling and shale oil & gas.

In order to measure the overall sustainability-related impact of the funds, the carbon intensity and the ESG scores were taken into account. These metrics are reported on a monthly basis.

<sup>5</sup> See [nnip.com](http://nnip.com) for more information.

## Management's report (continued)

The following funds score as follows on these indicators per September 30, 2021<sup>6</sup>:

Name fund	Carbon intensity (Scope 1+2 & 3 (tCO <sub>2</sub> e/€1m revenue))	ESG Score (ESG Lens)	ESG Score (Sustainalytics ESG Risk Rating)
NN (L) Global Sustainable Equity	154.50	61.80	17.79
NN (L) European Sustainable Equity	253.35	64.23	18.47
NN (L) Euro Sustainable Credit	511.61	57.22	20.31
NN (L) Euro Sustainable Credit (excluding Financials)	765.80	58.82	19.68

<sup>6</sup> See nnip.com for more information.

### Enhanced funds

The enhanced funds have screened companies on several Environmental, Social and Governance (ESG) criteria. The funds have targeted companies that combine respect for social principles (e.g. human rights, non-discrimination, the issue of child labour) and environmental principles with a financial performance.

The funds applied the Management Company's norms-based responsible investment criteria, along with the NN IP Responsible Investing Policy and Exclusion List. These exclusion filters related to both activities and behaviours. Issuers with serious and structural issues concerning ESG controversies were excluded.

As the funds have impact investment objectives, more stringent restrictions were applied to investments in these issuers, including those issuers with involvement in activities related to gambling, weapons, adult entertainment, fur & specialty leather, Arctic drilling and shale oil & gas.

In order to measure the overall sustainability-related impact of the funds, the carbon intensity and the ESG scores were taken into account. These metrics are reported on a monthly basis.

The following funds score as follows on these indicators per September 30, 2021<sup>7</sup>:

Name fund	Carbon intensity (Scope 1+2 & 3 (tCO <sub>2</sub> e/€1m revenue))	ESG Score (ESG Lens)	ESG Score (Sustainalytics ESG Risk Rating)
NN (L) Emerging Markets Enhanced Index Sustainable Equity	1091.20	52.56	25.10

## REPORT OF THE REVISEUR D'ENTREPRISES AGREE

### *Report on the audit of the financial statements*

#### *Opinion*

We have audited the financial statements of NN (L) and each of its sub-funds ("the Fund"), which comprise the statement of net assets, the securities portfolio and the financial derivative instruments as at September 30, 2021 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of NN (L) and each of its sub-funds as at September 30, 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### *Basis for opinion*

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the Audit of the Financial Statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Other information*

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

## REPORT OF THE REVISEUR D'ENTREPRISES AGREE (continued)

### *Responsibilities of the Board of Directors of the Fund for the financial statements*

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### *Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements*

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

## REPORT OF THE REVISEUR D'ENTREPRISES AGREE (continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

<b>Portfolio turnover in %*</b>	30/09/2021		9.41%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

(1) On December 1, 2019, the sub-fund NN (L) Climate & Environment changed its base currency from USD to EUR.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

Capitalisation P Hedged (i) (EUR)	30/09/2021		1.25%
Capitalisation Z (USD)	30/09/2021		0.16%
<b>Portfolio turnover in %*</b>	30/09/2021		76.56%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

Capitalisation Z (EUR)	30/09/2021	0.16%
Distribution P (USD)	30/09/2021	0.60%
Distribution R (USD)	30/09/2021	0.35%
<b>Portfolio turnover in %*</b>	30/09/2021	48.68%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

<b>Portfolio turnover in %*</b>	30/09/2021		42.20%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

Capitalisation P (EUR)	30/09/2021		1.80%
Distribution P (EUR)	30/09/2021		1.80%
<b>Portfolio turnover in %*</b>	30/09/2021		131.46%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

<b>Portfolio turnover in %*</b>	30/09/2021		(39.20%)

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

#### Ongoing charges in %\*

Capitalisation I (EUR)	30/09/2021	0.81%
Capitalisation I (USD)	30/09/2021	0.81%
Capitalisation I Hedged (ii) (EUR)	30/09/2021	0.83%
Capitalisation P (EUR)	30/09/2021	1.80%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

<b>Portfolio turnover in %*</b>	30/09/2021	79.81%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

				<b>Portfolio turnover in %*</b>	30/09/2021	(4.57%)

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

<b>Portfolio turnover in %*</b>	30/09/2021		91.19%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

<b>Portfolio turnover in %*</b>	30/09/2021	25.53%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

(1) On December 1, 2019, the sub-fund NN (L) Smart Connectivity changed its base currency from USD to EUR.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17). This sub-fund was launched during the year. Data for portfolio turnover calculation is based on information since the launch of the sub-fund until September 30, 2021.

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

Distribution Z (EUR)	30/09/2021		0.21%
<b>Portfolio turnover in %*</b>	30/09/2021		125.07%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17). This sub-fund was launched during the year. Data for portfolio turnover calculation is based on information since the launch of the sub-fund until September 30, 2021.

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

Capitalisation Zz (USD)	30/09/2021		0.01%
<b>Portfolio turnover in %*</b>	30/09/2021		111.86%

\* The portfolio turnover data has been calculated by the Administrative Agent (see note 17).

The ongoing charges figure corresponds to the ongoing charges figure as mentioned in the latest available Key Investor Information Document ("KIID") as at the date of this report. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the ongoing charges.

The ongoing charges and the portfolio turnover rate are calculated for the last twelve months.

The ongoing charges are annualised for periods less than one year. The portfolio turnover rate is not annualised for periods less than one year.

\*\* Official net asset value per share including a swing pricing adjustment, if any.

### 1- GENERAL INFORMATION

NN (L) (the "Company" or the "SICAV" or the "Fund") is a "Société d'Investissement à Capital Variable" ("SICAV") incorporated on September 6, 1993 for an unlimited period as a société anonyme (public limited company), governed by Part I of the Luxembourg law of December 17, 2010 on undertakings for collective investment, as amended.

The Memorandum and Articles of Association of the Company were published in the "Mémorial C, Recueil Spécial des Sociétés et Associations" of the Grand Duchy of Luxembourg and filed with the Register of the Luxembourg District Court where they may be consulted and copies may be obtained upon payment of registry fees.

The Company is registered with the Luxembourg Register of Companies under number B 44 873.

The Company currently offers the following share classes to the investors:

Share class name	Description
Capitalisation I	Capitalisation shares dedicated to institutional investors.
Capitalisation I Hedged*	Capitalisation shares dedicated to institutional investors and denominated in a currency other than the reference currency of the sub-fund. These shares use hedging techniques against the exposure on the reference currency of the sub-fund.
Capitalisation M	Capitalisation shares reserved for institutional investors yet differing from Share-Class "I" in that it attracts a maximum management fee of 1.5% and a subscription fee of maximum 5%. It is distributed by affiliates to the Management Company, or at the discretion of the Board of Directors, by distributors and/or in certain countries where market conditions require this fee structure.
Capitalisation N	Capitalisation shares that do not pay any rebates and are intended for individual investors having their securities account in the Netherlands with a Dutch regulated financial institution. The maximum management fee for Share-Class "N" is lower than the maximum management fee for Share-Class "P". The fixed service fee for Share-Class "N" is equal to the fixed service fee for Share-Class "P". Subscription and conversion fees are not applicable for this Share-Class type.
Capitalisation N Hedged*	Capitalisation shares that do not pay any rebates and are intended for individual investors in the Dutch market and denominated in a currency other than the reference currency of the sub-fund. The maximum management fee for Share-Class "N" is lower than the maximum management fee for Share-Class "P". The fixed service fee for Share-Class "N" is equal to the fixed service fee for Share-Class "P". Subscription and conversion fees are not applicable for this Share-Class type. These shares use hedging techniques against the exposure on the reference currency of the sub-fund.
Capitalisation O	Capitalisation shares intended for individual investors who are clients of Distributors who have signed, at the discretion of the Management Company, an O Share-Class agreement with the Management Company in relation to their clients' investment in the Company. Neither retrocessions nor rebates are paid. The maximum management fee for Share-Class "O" is lower than the maximum fee for Share-Class "P". The fixed service fee for Share-Class "O" is equal to the fixed service fee for Share-Class "P". The maximum subscription fee and conversion fee for Share-Class "O" is equal to maximum subscription fee and conversion fee of Share-Class "P".
Capitalisation O Hedged*	Capitalisation shares intended for individual investors who are clients of Distributors who have signed, at the discretion of the Management Company, an O Share-Class agreement with the Management Company in relation to their clients' investment in the Company and denominated in a currency other than the reference currency of the sub-fund. Neither retrocessions nor rebates are paid. The maximum management fee for Share-Class "O" is lower than the maximum fee for Share-Class "P". The fixed service fee for Share-Class "O" is equal to the fixed service fee for Share-Class "P". The maximum subscription fee and conversion fee for Share-Class "O" is equal to maximum subscription fee and conversion fee of Share-Class "P". These shares use hedging techniques against the exposure on the reference currency of the sub-fund.
Capitalisation P	Capitalisation shares intended for individual investors.
Capitalisation P Hedged*	Capitalisation shares intended for individual investors denominated in a currency other than the reference currency of the sub-fund. These shares use hedging techniques against the exposure on the reference currency of the sub-fund.
Capitalisation Q	Capitalisation shares reserved for institutional investors. Neither retrocessions nor rebates are paid. The maximum management fee for Share-Class "Q" is lower than the maximum fee for Share-Class "I". The fixed service fee for Share-Class "Q" is equal to the fixed service fee for Share-Class "I". Subscription and conversion fees are not applicable for this Share-Class type.

## Notes to the financial statements (continued)

Share class name	Description
Capitalisation R	Capitalisation shares intended for individual investors who are clients of Distributors which provide investment advisory services based on separate fee arrangements. No retrocessions or rebates are paid. The maximum management fee for Share-Class "R" is lower than the maximum management fee for Share-Class "P". The fixed service fee for Share-Class "R" is equal to the fixed service fee for Share-Class "P". The maximum subscription and conversion fees for Share-Class "R" are equal to those of Share-Class "P".
Capitalisation R Hedged*	Capitalisation shares intended for individual investors who are clients of Distributors which provide investment advisory services based on separate fee arrangements and denominated in a currency other than the reference currency of the sub-fund. No retrocessions or rebates are paid. The maximum management fee for Share-Class "R" is lower than the maximum management fee for Share-Class "P". For this Share-Class, the management fee is levied and collected by the Management Company directly from the Shareholder as determined in the Special Agreement. The investment in this Share-Class requires a minimum holding amount of EUR 5,000,000 or the equivalent in another currency. These shares use hedging techniques against the exposure on the reference currency of the sub-fund.
Distribution Z (HY) Hedged*	Distribution shares dedicated to institutional investors that, at the discretion of the Management Company, have signed a special management agreement ("Special Agreement") in addition to their subscription agreement in relation to their investment in the Fund and denominated in a currency other than the reference currency of the sub-fund – Bi-annual dividend. For this Share-Class, the management fee is levied and collected by the Management Company directly from the Shareholder as determined in the Special Agreement. The investment in this Share-Class requires a minimum holding amount of EUR 5,000,000 or the equivalent in another currency. These shares use hedging techniques against the exposure on the reference currency of the sub-fund.
Distribution Z (M) Hedged*	Distribution shares dedicated to institutional investors that, at the discretion of the Management Company, have signed a special management agreement ("Special Agreement") in addition to their subscription agreement in relation to their investment in the Fund and denominated in a currency other than the reference currency of the sub-fund - Monthly dividend. For this Share-Class, the management fee is levied and collected by the Management Company directly from the Shareholder as determined in the Special Agreement. The investment in this Share-Class requires a minimum holding amount of EUR 5,000,000 or the equivalent in another currency. These shares use hedging techniques against the exposure on the reference currency of the sub-fund.
Distribution Z (Q) Hedged*	Distribution shares dedicated to institutional investors that, at the discretion of the Management Company, have signed a special management agreement ("Special Agreement") in addition to their subscription agreement in relation to their investment in the Fund and denominated in a currency other than the reference currency of the sub-fund - Quarterly dividend. For this Share-Class, the management fee is levied and collected by the Management Company directly from the Shareholder as determined in the Special Agreement. The investment in this Share-Class requires a minimum holding amount of EUR 5,000,000 or the equivalent in another currency. These shares use hedging techniques against the exposure on the reference currency of the sub-fund.
Distribution Zz Hedged*	Distribution shares reserved for institutional investors yet differing from Share-Class "Z" in that, a fund management services fee covering the management fee, the Service Fee and any other fees will be levied and collected by the Management Company directly from the Shareholder as determined in the fund management services agreement ("Fund Management Services Agreement") signed with the Management Company at its discretion and denominated in a currency other than the reference currency of the sub-fund. These shares use hedging techniques against the exposure on the reference currency of the sub-fund.

\*The intention is to hedge full or part of the value of the net assets in the reference currency of the sub-fund or the currency exposure of certain (but not necessarily all) assets of the relevant sub-fund into either the reference currency of the currency hedged share class, or into an alternative currency. It is generally intended to carry out such hedging through the use of various derivative financial instruments including, but not limited to over-the-counter currency forward contracts and foreign exchange swap agreements. Profits and losses associated with such hedging transactions are allocated to the applicable currency hedged share class or classes.

The techniques used for share class hedging may include:

- i. hedging transactions to reduce the effect of fluctuations in the exchange rate between the currency in which the share class is denominated and the reference currency of the relevant sub-fund ("Base Currency Hedging");
- ii. hedging transactions to reduce the effect of fluctuations in the exchange rate between the currency exposure arising from the holdings of the relevant sub-fund and the currency in which the share class is denominated ("Portfolio Hedging at Share-Class Level");
- iii. hedging transactions to reduce the effect of fluctuations in the exchange rate between the currency exposure arising from the holdings of the relevant benchmark and the currency in which the share class is denominated ("Benchmark Hedging at Share-Class Level");
- iv. hedging transactions to reduce the effect of fluctuations in the exchange rate based on correlations between currencies arising from the holdings of the relevant sub-fund and the currency in which the share class is denominated ("Proxy Hedging at Share-Class Level").

The investors must be aware that every share class is not offered by every sub-fund of the Company.

## Notes to the financial statements (continued)

### Investment policies

Shareholders are advised that detailed investment policies of each sub-fund are described in the prospectus, which is made available to the shareholders at the depositary bank and at the Company's registered office as well as at the Local Sales offices or Main Client servicing contacts identified in this report. The prospectus will also be sent free of charge to anyone who so requests.

The following sub-funds are invested in other sub-funds of the Fund. As at September 30, 2021, such investments are as follows:

Investing sub-fund	Investee sub-fund	Investment at market value as at September 30, 2021
NN (L) Emerging Markets Debt (Hard Currency)	NN (L) Asian Debt (Hard Currency)	8,156,381.44 USD
NN (L) Emerging Markets Debt (Hard Currency)	NN (L) Emerging Markets Corporate Debt	101,932,993.51 USD
NN (L) Emerging Markets Debt (Hard Currency)	NN (L) Emerging Markets Debt Short Duration (Hard Currency)	98,761,364.95 USD
NN (L) Emerging Markets Debt (Hard Currency)	NN (L) Frontier Markets Debt (Hard Currency)	233,111,359.93 USD
NN (L) Emerging Markets Debt (Local Currency)	NN (L) Emerging Markets Debt Short Duration (Hard Currency)	3,833,232.25 USD
NN (L) Euro Fixed Income	NN (L) AAA ABS	53,511,204.34 EUR
NN (L) Euro Fixed Income	NN (L) European ABS	27,152,931.08 EUR
NN (L) Euro Long Duration Bond	NN (L) European ABS	19,407,453.56 EUR
NN (L) First Class Yield Opportunities	NN (L) First Class Stable Yield Opportunities	15,256,056.84 EUR
NN (L) Global Convertible Opportunities	NN (L) Global Convertible Bond	27,300,485.00 USD
NN (L) Global High Yield	NN (L) Asian High Yield	54,053,032.61 EUR
NN (L) Global High Yield	NN (L) European High Yield	35,950,850.00 EUR
NN (L) Global High Yield	NN (L) US High Yield	84,238,611.57 EUR

NN (L) Multi Asset High Income	NN (L) Emerging Markets Enhanced Index Sustainable Equity	269,136.57 EUR
NN (L) Multi Asset High Income	NN (L) European ABS	284,769.54 EUR
NN (L) Multi Asset High Income	NN (L) European High Dividend	669,849.72 EUR
NN (L) Multi Asset High Income	NN (L) Global Enhanced Index Sustainable Equity	327,031.88 EUR
NN (L) Multi Asset High Income	NN (L) Global High Yield	1,030,500.04 EUR
NN (L) Multi Asset High Income	NN (L) Global Sustainable Equity	1,041,975.66 EUR
NN (L) Multi Asset High Income	NN (L) US High Yield	117,589.13 EUR

The combined statements were calculated on the basis of aggregation of individual sub-funds statements with no elimination of cross-investments if any. As of September 30, 2021, the cross-investments within the Fund represent EUR 702,106,934.05 or 1.89% of the combined net assets. The investment in NN (L) Liquid was excluded from the table as it does not belong to the scope of NN (L) sub-funds.

### Changes

As a matter of economic rationalization, and in accordance with the provisions of article 26 of the Articles, chapter XV of the Prospectus and article 1(20)(a) of the Luxembourg law of 17 December 2010 on undertakings for collective investment (the "Law of 2010"), the Fund Board has agreed to proceed with a cross-border merger (the "Cross-Border Merger") which consists in three sub-mergers (individually referred to "Merger 1", "Merger 2" and "Merger 3"). The merging sub-funds listed in the three tables below (the "Merging Sub-Funds") were absorbed into the receiving sub-funds of the Company listed in those tables as well (the "Receiving Sub-Funds"). The Merging Sub-Funds were part of a Dutch fund denominated "NN Paraplufonds 1 NV".

On November 17, 2020, there was a redemption-in-kind from the sub-fund NN (L) US Credit.

Launch of the sub-fund NN (L) Global Convertible Income has been cancelled.

The sub-fund NN (L) Sovereign Green Bond was launched on March 31, 2021 (1st NAV on April 1, 2021).

The sub-fund NN (L) US Behavioral Equity was launched on May 10, 2021 (1st NAV on May 11, 2021).

On the 19th of August 2021 NN Group announced that it has reached an agreement to sell its asset manager NN Investment Partners (NN IP) to Goldman Group Inc. (Goldman Sachs). The agreement follows a strategic review of NN IP that was announced on the 26th of April 2021 in which NN Group aimed to pursue long-term value creation beneficial to all stakeholders. The closing of the transaction is subject to customary conditions, including obtaining the necessary regulatory and competition clearances and consultation of the NN IP works council in the Netherlands. The closing of the transaction is expected to be completed by the first quarter of 2022. Until the closing NN IP and Goldman Sachs will continue to act as two separate entities.

The sub-fund NN (L) US Growth Equity was liquidated on September 22, 2021.

## 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared on a going concern basis of accounting, except for the sub-fund NN (L) US Growth Equity, for which a non-going concern basis was adopted. The financial statements are presented in accordance with generally accepted accounting principles and regulations in force in Luxembourg.

### Currency conversion

The financial statements have been drawn up in the accounting currency of each sub-fund. Assets and liabilities expressed in currencies other than the accounting currency of the sub-fund are converted into that currency at the exchange rates prevailing on the closing date.

Income and expenses expressed in currencies other than the accounting currency of the sub-fund are converted into that currency at the exchange rates prevailing on the transaction date.

## Notes to the financial statements (continued)

The various items in the combined statements correspond to the sum of the corresponding items in the financial statements of each sub-fund, converted if applicable into EUR, the Company's consolidation currency, at the exchange rates prevailing on the closing date.

The valuation difference of the net assets of the sub-funds at the beginning of the year with the exchange rate applicable at the date of the financial statements is recorded in the item "Conversion difference" in the combined statement of operations and changes in net assets.

As at September 30, 2021, the exchange rates used were as follows:

1 EUR =	4.2570	AED	1 EUR =	9.0220	HKD	1 EUR =	59.1180	PHP

### Securities valuation

The value of all assets is determined under the responsibility of the Company's Board of Directors.

The valuation of Company assets will, for Transferable Securities and Money Market Instruments or derivatives admitted to an official stock exchange or traded on any other regulated market, be based on the last available price on the principal market on which these securities, Money Market Instruments or derivatives are traded, as provided by a recognised listing service approved by the Company's Board of Directors. If such prices are not representative of the fair value, these securities, Money Market Instruments or derivatives as well as other authorised assets will be valued on the basis of their foreseeable sale prices, as determined in good faith by the Company's Board of Directors.

## Notes to the financial statements (continued)

Securities and Money Market Instruments which are not listed or traded on any regulated market will be valued based on the last available price, unless such price is not representative of their true value; in this case, the valuation will be based on the foreseeable sale price of the security, as determined in good faith by the Company's Board of Directors.

Investments in investment funds, either listed or not, are valued on the basis of their last available net asset value per share/unit.

Bonds (including ABS) are valued clean (excluding interest receivable) except those identified in the securities portfolio of each concerned sub-fund. The ones valued dirty are identified by an asterisk in the portfolio. The last known price used for the bonds is the Bid price.

The fund's valuation methodology for money market instruments in the Money Market funds meet the requirements of money market fund regulation (MMFR) that came into effect as of January 21, 2019. The valuation model determines that the MMF valuation shall be valued on a daily basis. The assets of a MMF shall be valued by using mark-to-market whenever possible.

When using mark-to-market:

- a. the asset of a MMF shall be valued at the more prudent side of bid and offer unless the asset can be closed out at mid-market;
- b. only good quality market data shall be used; such data shall be assessed on the basis of all of the following factors:
  - i. the number and quality of the counterparties;
  - ii. the volume and turnover in the market of the asset of the MMF;
  - iii. the issue size and the portion of the issue that the MMF plans to buy or sell.

Where use of mark-to-market is not possible or the market data is not of sufficient quality, an asset of a MMF shall be valued conservatively by using mark-to-model. The model shall accurately estimate the intrinsic value of the asset of a MMF, based on all of the following up-to-date key factors:

- a. the volume and turnover in the market of that asset;
- b. the issue size and the portion of the issue that the MMF plans to buy or sell;
- c. market risk, interest rate risk, credit risk attached to the asset.

When using mark-to-model, the amortised cost method shall not be used. A MMF shall calculate a NAV per unit or share as the difference between the sum of all assets of the MMF and the sum of all liabilities of the MMF valued in accordance with mark-to-market or mark-to-model, or both, divided by the number of outstanding units or shares of the MMF.

Realised gains and losses on securities portfolio are calculated on the basis of the average cost of securities sold.

### Financial derivative instruments valuation

The value of all assets is determined under the responsibility of the Company's Board of Directors.

Swaps are, in general, contracts by which two parties commit themselves during a given period to exchange two flows, one in exchange of the other, determined on the basis of a nominal value. The flows may be linked to interest rate(s), exchange rate(s), share(s), index(es) or credit event(s). Swap contracts are valued using the difference between the values of forecasted flows the counterparty is to pay to the Sub-Fund and those owed by the Sub-Fund to its counterparties. Swaps are valued on the basis of their market value, which depends on several parameters (level of the index, market interest rate, remaining life of the swap).

Net positive fair values of swap instruments are disclosed as assets and net negative fair values as liabilities in the Statement of net assets, under the item "Total financial derivative instruments". Realized gains or (losses) and changes in unrealized results are recorded in the Statement of operations and changes in net assets.

Swaps are valued clean (excluding interest receivable/payable) except those identified in the financial derivative instruments of each concerned sub-fund. Interest to be received on swaps is included in the item "Other assets". Interest to be paid on swaps is included in the item "Current liabilities".

## Notes to the financial statements (continued)

The forward foreign exchange contracts represent obligations of purchase or the sale of foreign currency on the basis of future exchange rates determined at a fixed price at the time of conclusion of the contracts. The unexpired forward foreign exchange contracts are valued at the last "forward" rate available on the valuation dates or at the balance sheet date and unrealised appreciation or (depreciation) are recorded. Net positive fair values of forward foreign exchange contracts are disclosed as assets and net negative fair values as liabilities in the Statement of net assets, under the item "Total financial derivative instruments". Realized gains or (losses) and changes in unrealized results are recorded in the Statement of operations and changes in net assets.

Futures contracts are valued based on the last available market price. Initial margin deposits are made upon entering into futures contracts. Variation margin payments are made or received, depending on the daily fluctuation in market value of the contract and are recorded by the fund as unrealized appreciation and depreciation. Net positive fair values of futures instruments are disclosed as assets and net negative fair values as liabilities in the Statement of net assets, under the item "Total financial derivative instruments". Realized gains or (losses) and changes in unrealized results are recorded in the Statement of operations and changes in net assets. For the calculation of net holdings by currency on financial instruments, the holdings are converted at the exchange rate prevailing at the period-end.

Option contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market. Option contracts not quoted on an official stock exchange or on another regulated market are valued at their last known market value or, in the absence of a market value, according to their probable market value in the reasonable estimation of the Board of Directors of the Fund.

Net positive fair values of option instruments are disclosed as assets and net negative fair values as liabilities in the Statement of net assets, under the item "Total financial derivative instruments". Realized gains or (losses) and changes in unrealized results are recorded in the Statement of operations and changes in net assets.

### Income and Expenses

Dividends are accounted for on the ex-date, net of withholding tax.

Interest is accrued on a daily basis.

Discounts are accreted and premiums are amortised as adjustments to interest on bonds and other debt instruments.

### 3- SWINGING SINGLE PRICING

A sub-fund may suffer "dilution" of its net asset value per share because the price at which investors subscribe or redeem shares of the sub-fund, does not reflect the dealing and other costs that arise when trading is undertaken by the Investment Manager to accommodate the cash inflows or outflows related to these subscriptions or redemptions.

In order to counter this impact, a Swinging Single Pricing mechanism (SSP) may be applied to compensate expected transaction costs resulting from the difference between capital inflows and outflows. If on any valuation day, the aggregate net transactions in shares of a sub-fund exceed a pre-determined threshold, the net asset value per share may be adjusted upwards or downwards to compensate expected transaction costs related to these net capital inflows or outflows respectively by a pre-determined swing factor. The net inflows and net outflows will be determined by the Board of Directors based on the latest available information at the time of calculation of the net asset value per share.

Such predetermined threshold and swing factors are reviewed on a regular basis and may be adjusted. The maximum Swing Factor is 1.50% of the respective Sub-Fund's Net Asset Value except for Sub-Funds investing in fixed income instruments which may apply a maximum Swing Factor of 3.00%.

In exceptional market circumstances, in the case of large volumes of subscription, redemption or conversion requests that may have an adverse effect on the interests of Shareholders, the Board of Directors may, at its own discretion, authorize a temporary increase of a Swing Factor beyond the maximum Swing Factor. Exceptional market circumstances can be characterized among others as periods of increased market volatility, lack of liquidity, challenges in dealer intermediation, disorderly trading conditions, dislocated markets, disconnect between market pricing and valuations and could be the result of force majeure (acts of war, industrial action, civil unrest or cyber sabotage, among others).

The current levels of thresholds and Swing Factors for each Sub-Fund are disclosed and updated on the website: [www.nnip.com](http://www.nnip.com).

As at September 30, 2021, a swing factor was applied on the following sub-funds:

- NN (L) Asian Debt (Hard Currency),
- NN (L) European Real Estate,
- NN (L) Global High Dividend,
- NN (L) Green Bond,
- NN (L) Japan Equity.

## Notes to the financial statements (continued)

The list of sub-funds which have applied the swinging single pricing mechanism through the reporting year ended September 30, 2021 is as follows:

Sub-funds	Thresholds	Swing Factor subscriptions	Swing Factor redemptions
NN (L) AAA ABS	1.00%	0.10%	0.05%

NN (L) US High Yield	1.00%	0.33%	0.17%

<sup>(1)</sup> The sub-fund NN (L) Sovereign Green Bond was launched on March 31, 2021.

<sup>(2)</sup> The sub-fund NN (L) US Growth Equity was liquidated on September 22, 2021.

The swing factors disclosed are the current applicable factors and may not be the actual ones that were applied during the year ended September 30, 2021.

#### 4- OTHER ASSETS AND CURRENT LIABILITIES

Other assets account includes mainly accrued interest, receivables on sales of securities and other instruments, receivables on subscriptions, other receivables, cash collateral due from brokers and interest to be received on swaps.

Current liabilities account includes mainly fee accruals, payables on purchases of securities and other instruments, payables on redemptions, other payables, cash collateral due to brokers, interest to be paid on swaps and provision for anti-dilution swing down.

#### 5- MANAGEMENT FEES

In accordance with the terms and conditions of the "Collective Portfolio Management Agreement" between NN Investment Partners B.V. and the SICAV, the sub-funds pay NN Investment Partners B.V. an annual management fee calculated on the average net assets of each class of shares as described in the table below. This fee is payable monthly in arrears.

As at September 30, 2021, the effective management fees rates for the active share classes are as follows:

Sub-funds	Management fees rate (p.a.)															
	Class D (in %)	Class I (in %)	Class M (in %)	Class N (in %)	Class O (in %)	Class P (in %)	Class Q (in %)	Class R (in %)	Class S (in %)	Class T (in %)	Class U (in %)	Class V (in %)	Class X (in %)	Class Y (in %)	Class Z* (in %)	Class Zz* (in %)
NN (L) AAA ABS	-	0.12	-	-	-	-	-	-	-	-	-	-	-	-	0.00	0.00

\* for this share class, the management fee is not charged to the share class. Instead, a specific management fee is levied and collected by the Management Company directly from the shareholders.

<sup>(1)</sup> For the sub-fund NN (L) Global Convertible Bond the management fee rates have changed as follows:

- share class "I" - 0.72% until December 31, 2020, 0.50% since January 1, 2021,
- share class "P" - 1.20% until December 31, 2020, 0.80% since January 1, 2021,
- share class "R" - 0.60% until December 31, 2020, 0.50% since January 1, 2021.

<sup>(2)</sup> The sub-fund NN (L) Sovereign Green Bond was launched on March 31, 2021.

<sup>(3)</sup> The sub-fund NN (L) US Behavioral Equity was launched on May 10, 2021.

<sup>(4)</sup> The sub-fund NN (L) US Growth Equity was liquidated on September 22, 2021.

In the event of investment in UCITS and other target UCIs and where the Management Company or the investment manager by delegation is paid a management fee charged directly to the assets of these UCITS and other UCIs, such payments shall be deducted from the remuneration payable to the Management Company or the Investment Manager by delegation.

The sub-fund NN (L) Multi Asset High Income has more than 50% of its respective net assets invested in other UCITS/UCI, managed directly or by delegation by the same management company. The maximum management fee rate charged to these sub-funds and the UCITS/UCIs in which they are invested are as follows:

Sub-funds	Management fee rate %
NN (L) Emerging Markets Corporate Debt - Z Cap USD*	-
NN (L) Emerging Markets Debt (Hard Currency) - I Cap USD	0.72
NN (L) Emerging Markets Enhanced Index Sustainable Equity - I Cap EUR	0.10
NN (L) European ABS - I Cap EUR	0.36
NN (L) European High Dividend - I Cap EUR	0.60
NN (L) Global Enhanced Index Sustainable Equity - I Cap USD	0.08
NN (L) Global High Yield - I Cap EUR (hedged iii)	0.72
NN (L) Global Sustainable Equity - I Cap EUR	0.60
NN (L) US High Yield - Z Cap USD*	-

\* for this share class the management fee is not charged to the share class. Instead a specific management fee is levied and collected by the Management Company directly from the shareholders.

In the case where the management fees paid by the investee funds exceed the management fees to be paid by the sub-funds of the SICAV, the balance ("management fees excess") is recorded in the item "Other income" in the statement of operations and changes in net assets.

NN Investment Partners B.V. has entrusted, at its own expense, the management of the different sub-funds to the investment managers listed below:

Sub-funds	Investment Managers

### 6- FIXED SERVICE FEES

A fixed service fee is charged at the level of the share classes of each sub-fund. The fixed service fee is paid to the Management Company and used by the latter to pay in the name of the Company the administration fees, the depositary fees, the transfer agent fees, the Belgian subscription tax and other on-going operating and administrative expenses billed to the Company.

The fixed service fee is fixed in the sense that the Management Company will bear the excess of any expenses above the annual paid fixed service fee for each share class of each sub-fund.

Conversely, the Management Company will be entitled to retain any amount of service fee charged to the share class which exceeds the actual related expenses incurred by the respective share class.

This fee, calculated on the average net assets of each class of shares, is payable monthly in arrears.

## Notes to the financial statements (continued)

As at September 30, 2021, the effective fixed service fees rates for the active share classes are as follows:

Sub-funds	Fixed service fees rate (p.a.)

\* for this share class, an additional distribution fee of 1.00% per annum is charged.

\*\* for this share class, a service fee is charged to cover the administration and safe-keeping of assets and other on-going operating and administrative expenses.

<sup>(1)</sup> The sub-fund NN (L) Sovereign Green Bond was launched on March 31, 2021.

<sup>(2)</sup> The sub-fund NN (L) US Behavioral Equity was launched on May 10, 2021.

<sup>(3)</sup> For this share class there are two different fixed service fee rates, for Capitalisation - 0.15% and for Distribution - 0.12%.

<sup>(4)</sup> The sub-fund NN (L) US Growth Equity was liquidated on September 22, 2021.

### 7- OVERLAY FEES

The Management Company may be entitled to receive a uniform Share-Class Overlay Fee of maximum 0.04% which is to be paid from the assets of the applicable Share-Class and based on actual costs. The Share-Class Overlay Fee is accrued at each calculation of the Net Asset Value and is set as a maximum in the sense that the Management Company may decide to lower the Overlay Fee charged to the respective Share-Class if economies of scale will allow.

The Overlay Fee will be applicable to all the Currency Hedged Share-Classes and Duration Hedged Share-Classes. In case of Z and Zz Share-Classes those fees may be specified in the Special Agreement or Fund Management Services Agreement which will be levied and collected by the Management Company directly from the Shareholder and not charged directly to the respective Share-Class.

As at September 30, 2021, the Overlay Fee is 0.021%.

## Notes to the financial statements (continued)

### 8- TRANSACTION COSTS

The sub-funds of the SICAV incurred transaction costs which have been defined as brokerage fees relating to purchases or sales of transferable securities, money market instruments and financial derivative instruments (or other eligible assets traded in by the sub-funds) and/or commissions relating to subscriptions or redemptions of UCITS/UCI shares/units, if applicable.

In case of cross-investments or investment in the shares/units of other UCITS and/or other UCIs that are managed directly or by delegation by the Management Company (the "NNIP funds"), no transaction costs are applicable.

Transaction costs are included in the purchase/sale price of the securities.

For the year ended September 30, 2021, the amount of transaction costs incurred by each sub-fund is detailed in the following table:

Sub-funds	Currency	Transaction costs	Transaction costs - basis points (annualised)

## Notes to the financial statements (continued)

### 9- SUBSCRIPTION TAX

The Company is liable in Luxembourg to a subscription tax ("Taxe d'abonnement") of 0.01% per annum of its net assets for all shares restricted to institutional investors and all shares of the money market sub-fund NN (L) Euro Liquidity and of 0.05% per annum of its net assets for all the other shares.

The subscription tax is paid quarterly and calculated on the net asset value at the end of the relevant calendar quarter.

No subscription tax is paid on the assets held by the Company in other UCIs already subject to that tax in Luxembourg.

### 10- OTHER INCOME

This account mainly includes the security lending income, consent payment income on bonds, management fees excess defined in Note 5.

### 11- OTHER EXPENSES

This account mainly includes legal expenses, variable ADR and GDR fees and Capital Gain Tax.

### 12- CHANGES IN THE COMPOSITION OF THE SECURITIES PORTFOLIO

These changes are made available to the shareholders at the depositary bank and at the Company's registered office as well as at the Local Sales offices or Main Client servicing contacts identified in this report. They will also be sent free of charge to anyone who so requests.

### 13- SECURITIES LENDING

Under an agreement dated February 26, 2008 and subsequently amended on May 2, 2011, the SICAV has appointed Goldman Sachs International Bank to act as securities lending agent for the SICAV.

The totality of the income generated from the securities lending program is credited to the participating sub-funds. The fee structure of the securities lending activity is based on the yield generated and the revenue offered by counterparties borrowing securities. NN Investment Partners B.V. and/or the external lending agents do not charge a management fee in that respect.

As at September 30, 2021, the sub-funds of the SICAV which are mentioned below were engaged in securities lending transactions.

The value of the securities lent and the market value of the collateral received for each sub-fund is detailed in the following table:

Sub-funds	Currency	Market value of securities lent	Market value of collateral received*	Securities lending income
NN (L) Asian Debt (Hard Currency)	USD	4,606,308.91	5,349,071.34	77,291.85
NN (L) Asian High Yield	USD	4,174,404.92	4,412,302.05	44,810.93
NN (L) Emerging Markets Corporate Debt	USD	1,362,135.54	1,528,277.14	2,681.42
NN (L) Emerging Markets Debt (Hard Currency)	USD	131,856,689.13	149,185,653.50	420,561.93
NN (L) EURO Equity	EUR	3,418,496.00	3,805,436.26	104,772.21
NN (L) European High Dividend	EUR	1,009,539.56	1,119,547.11	19,768.80
NN (L) European High Yield	EUR	6,572,074.45	7,541,189.21	28,023.23
NN (L) First Class Yield Opportunities	EUR	3,840,526.32	4,382,792.86	9,962.23
NN (L) Frontier Markets Debt (Hard Currency)	USD	16,159,502.82	18,118,180.43	30,158.85
NN (L) Global High Yield	EUR	74,943,956.24	85,204,881.37	284,821.82
NN (L) US High Yield	USD	4,072,261.63	4,710,482.91	15,761.47

\* High quality government bonds and cash are used as collateral.

## Notes to the financial statements (continued)

As at September 30, 2021, the authorised borrowers are the following: ABN AMRO Bank N.V., Banco Santander SA, Barclays Capital Securities Ltd, BNP Paribas Arbitrage S.N.C., BNP Paribas Prime Brokerage International Ltd. (Ireland), BNP Paribas SA, Citigroup Global Markets Inc., Citigroup Global Markets Ltd, Commerzbank AG, Credit Agricole S.A., Credit Suisse AG (Dublin Branch), Credit Suisse Securities (Europe) Limited, Deutsche Bank AG, Goldman Sachs International, HSBC Bank PLC, ING Bank N.V., JP Morgan Securities Plc, Merrill Lynch International, Morgan Stanley & Co International Plc, Natixis SA, Nomura International Plc, Skandinaviska Enskilda Banken AB., Societe Generale S.A., UBS AG.

The following sub-funds had security lending incomes throughout the period but do not have lending as of September 30, 2021:

Sub-funds	Currency	Security lending income
NN (L) Asia Income	USD	2,351.79
NN (L) Emerging Europe Equity	EUR	8,942.75
NN (L) Euro Income	EUR	11,663.60
NN (L) European Equity	EUR	35,490.70
NN (L) Global High Dividend	EUR	25,689.07
NN (L) Greater China Equity	USD	203,482.46

Revenues from securities lending transactions are included in the caption "Other income".

### 14- INFORMATION TO SHAREHOLDERS

Under the Belgian Finance Act of December 22, 2003, that came into effect on January 1, 2004, a 0.06% yearly tax was applied on all money originating from Belgium included in the Company at December 31 of the prior year. This tax rate has been increased to 0.07% in 2005, to 0.08% in 2007, to 0.0965% in 2013 and decreased to 0.0925% from 2014 onwards.

The Company has lodged a complaint with the European Commission against the Belgian State for this tax to be recognized as contravening the Community law. That complaint has been rejected by the European Commission. Following another complaint introduced by the Company before the Belgian Courts, the Brussels Court of First Instance has delivered a positive judgment condemning the Belgian State to refund the amounts unduly paid. The Belgian State has, however, appealed against that decision. On November 29, 2018, the Court of Appeals of Brussel rendered its decision. The decision of the Court upheld the judgement of the Brussels Court of First Instance which had ordered the Belgian State to reimburse the Belgian yearly tax levied on the Luxembourg fund. The Belgian State has filed an appeal before the Belgian Supreme Court. The Supreme Court case is currently pending.

### 15- COLLATERAL RELATED TO OVER-THE-COUNTER FINANCIAL DERIVATIVE INSTRUMENTS

In order to reduce the counterparty risk linked to over-the-counter financial derivative instruments, the Company received/(delivered) collateral from/to the counterparties as listed below.

As at September 30, 2021, the value of the collateral received/(delivered) is as follows:

Sub-fund	Counterparty	Type of Collateral	Currency	Total Collateral received / (delivered)
NN (L) AAA ABS	Barclays	Cash	EUR	1,240,000.00
			<b>Total</b>	<b>1,240,000.00</b>

## Notes to the financial statements (continued)

### 16- SECURITIES FINANCING TRANSACTION REGULATION

Securities Financing Transaction Regulation (“SFTR”) introduces reporting requirements for securities financing transactions (“SFTs”) and total return swaps in the framework of transparency of securities financing transactions and of reuse.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- buy-sell back transaction or sell-buy transaction;
- margin lending transaction.

As at September 30, 2021 the Sub-funds held securities lending and total return swaps as a type of instruments under the scope of the SFTR.

#### Global data

The amount of assets across all securities lending as at September 30, 2021 is as follows:

Sub-fund	Type of Asset	Currency	Market Value	% of AUM	% of lendable assets
NN (L) Asian Debt (Hard Currency)	Securities lending	USD	4,606,308.91	0.98	1.02
NN (L) Asian High Yield	Securities lending	USD	4,174,404.92	1.67	1.81
NN (L) Emerging Markets Corporate Debt	Securities lending	USD	1,362,135.54	0.91	0.98
NN (L) Emerging Markets Debt (Hard Currency)	Securities lending	USD	131,856,689.13	1.87	2.02
NN (L) EURO Equity	Securities lending	EUR	3,418,496.00	0.96	0.96
NN (L) European High Dividend	Securities lending	EUR	1,009,539.56	0.48	0.48
NN (L) European High Yield	Securities lending	EUR	6,572,074.45	4.70	4.86
NN (L) First Class Yield Opportunities	Securities lending	EUR	3,840,526.32	0.89	0.91
NN (L) Frontier Markets Debt (Hard Currency)	Securities lending	USD	16,159,502.82	4.59	4.87
NN (L) Global High Yield	Securities lending	EUR	74,943,956.24	3.47	3.60
NN (L) US High Yield	Securities lending	USD	4,072,261.63	1.44	1.50

The amount of assets across total return swaps as at September 30, 2021 is as follows:

Sub-fund	Type of Asset	Currency	Market Value	% of AUM
NN (L) Commodity Enhanced	Total return swaps	USD	3,794,301.71	1.93
NN (L) Euro Fixed Income	Total return swaps	EUR	810,811.86	0.07
NN (L) Multi Asset Factor Opportunities	Total return swaps	USD	2,792,482.87	0.84

#### Data on reuse of collateral

There was no collateral reused during the year ended September 30, 2021.

#### Concentration data

The largest issuers for collateral securities received across all SFTs as at September 30, 2021 are as follows:

Sub-fund	Collateral Issuer	Currency	Market Value of collateral received

\* The amounts reported relate to OTC derivatives positions and not only to total return swaps positions.

The maturity of SFTs and TRS is as follows:

As at September 30, 2021, all the securities lending trades have an open maturity.

As at September 30, 2021, the maturity of each Total Return Swap is disclosed in the statement "Financial derivative instruments" of each sub-fund.

For the sub-fund NN (L) Commodity Enhanced, the maturity of the total return swap is between three months to one year.

For the sub-fund NN (L) Euro Fixed Income, the maturity of the total return swap is between one month to three months.

For the sub-fund NN (L) Multi Asset Factor Opportunities the maturity of two of the total return swaps is between three months to one year and the maturity of the remaining total return swaps is between one month to three months.

### Safekeeping of collateral granted

The collateral granted is on a title transfer basis and the fund can recover this collateral at any time. The counterparty only has the obligation to return the same amount back to the fund and the fund cannot request to return this amount "at any time" as long as there is exposure to the underlying transaction.

There was no collateral granted during the year ended September 30, 2021.

### Returns/Costs

The net returns presented in the note 16 cannot be compared to the securities lending income from note 13 because of timing difference related to communication and processing of data between the parties involved.

Returns and costs for each type of SFTs and total return swaps for the year ended September 30, 2021 are as follows:

## Notes to the financial statements (continued)

### 17- PORTFOLIO TURNOVER RATIO

The Portfolio Turnover Ratio is an indicator of the relevance of the additional costs incurred by a fund when buying and selling investments according to its investment policy.

The Portfolio Turnover Ratio is calculated using the method described below:

$$\text{Turnover} = \frac{(\text{Total 1} - \text{Total 2})}{M} * 100$$

Total 1 = Total securities transactions during the period = X + Y

X = purchases

Y = sales

Total 2 = Total capital transactions during the period = S + R

S = subscriptions

R = redemptions

M = Average Net Assets

The Portfolio Turnover Ratio is expressed as a percentage. The Portfolio Turnover calculation excludes the trades instructed into NN (L) Liquid which are linked to cash facility management.

### 18- SUBSEQUENT EVENTS

There have been no significant events to be reported.

## Other information to shareholders (unaudited)

### ALFI Code of Conduct

It is hereby confirmed that NN (L) adheres and complies to the principles of the ALFI “Code of Conduct for Luxembourg Investment Funds”.

### Remuneration Report - 2020 - NN Investment Partners B.V. (Management Company)

#### Introduction

This remuneration report describes NN Investment Partners B.V. (NN IP) remuneration philosophy and system as applicable to staff who perform activities for NN IP, including its investment funds as regulated by the Alternative Investment Funds Management Directive (AIFMD) and/or the Undertakings for Collective Investments in Transferable Securities Directive (UCITS).

This report is divided into the following subsections:

- I. Remuneration in general;
- II. Remuneration governance;
- III. Remuneration of Identified Staff; and
- IV. Quantitative information.

#### I. Remuneration in general

NN IP is a subsidiary of NN Group and meets all standards and guidelines as applicable within NN Group.

To provide more information on NN Group it will be explained high level below.

NN Group has an overall remuneration policy applicable to all staff, the NN Group Remuneration Framework, which provides for reward guidelines and principles for all country and business unit remuneration policies within NN Group. NN Group aims to apply a clear and transparent remuneration policy that is adequate to attract and retain expert leaders, senior staff and other highly qualified employees. The remuneration policy is also designed to support NN’s employees to act with integrity and to carefully balance the interests of our stakeholders, including the future of our customers and of our company.

NN Group’s remuneration policy for executives and senior staff is based on a total compensation approach and is benchmarked on a regular basis with relevant national and international peers, both within the financial sector and outside the financial sector. Clear financial and nonfinancial performance objectives are set which are aligned with the overall strategy of the company, both on the short term and the long term, to ensure that remuneration is properly linked to individual, team and company performance. Specifically for portfolio managers for NN IP the performance is directly linked to the 1-, 3- and 5- year relative performance of the funds managed which creates alignment with our clients’ interests. Furthermore, the remuneration policy supports a focus on the company’s long term interests and the interests of its customers and various stakeholders by ensuring that there is careful management of risk and that staff are not encouraged, via remuneration, to take excessive risk. In addition, the remuneration policy ensures that NN Group complies with all the relevant (inter)national regulations on remuneration, such as the Act on the Remuneration Policies of Financial Undertakings (Wet beloningsbeleid financiële ondernemingen), as relevant to our business.

In addition to variable remuneration payable in cash, the NN Group operates an Aligned Remuneration Plan (ARP) which allows NN IP to award deferred compensation in the form of Funds managed by NN Investment Partners to create further alignment of the employees interests with those of our clients. The ARP also allows NN Group shares to be awarded under a deferral policy which is in place for all staff. The general practice for staff employed by NN IP exceeding the deferral thresholds as set out in the policy, not being Identified Staff, is to deliver 50% of the deferred variable remuneration in Funds managed by NN IP, and the remaining 50% of the deferred variable remuneration in NN Group shares.

The deferral scheme parameters are set by the NN Group Executive Board and approved by the NN Group Supervisory Board, taking into account external market practice. These parameters include: (a) the proportion of the Variable Remuneration that is deferred (the proportion ensures that a significant part of the Variable Remuneration of High Earners is deferred); (b) the time horizon of the deferral (vesting schedule) and (c) the deferral instruments that are used (e.g. equity-linked instruments that align the value of the deferral with the performance of NN Group or products of NN Group).

The Remuneration Framework as well as the ARP includes both holdback and claw back clauses which can be invoked in the event that performance, risk, compliance or other issues are discovered after awards have been made.

## Other information to shareholders (unaudited)(continued)

In addition to NN Group's general remuneration principles for all staff as described in the above, the following three principles apply to remuneration of control function staff (i.e. those in Risk, Compliance, Legal, Finance, HR and Audit) in particular:

- the level of fixed remuneration is sufficiently high to ensure qualified and experienced staff can be employed;
- the ratio of fixed remuneration to variable remuneration is weighted in favor of fixed remuneration; and
- the variable remuneration is predominantly based on function-specific objectives that include qualitative criteria which are not determined by the financial performance of the business unit directly monitored by the control functions.

The remuneration policies as applicable to staff who perform activities for the AIF, UCITS and/or the Management Company ensure that NN IP complies with and acts in the spirit of all the applicable (inter)national regulations on remuneration, such as the Dutch Wet beloningsbeleid financiële ondernemingen (Wbfo), AIFMD and UCITS as relevant to our business.

### II. Remuneration governance

The Remuneration Governance of NN IP is embedded in the NN Group Governance Framework which requires certain remuneration proposals to be approved at NN Group level. This includes requirements for approvals by (i) the NN Group Compensation Committee in which the relevant control functions (Finance, Risk, HR, Legal and Compliance) and the NN Group Management Board Members are represented and (ii) the NN Group Supervisory Board to ensure an objective and independent view.

Examples of events at NN IP that require approval at NN Group level include:

- the Identified Staff (i.e. those staff with a material impact on the risk profile of NN Group and staff with material impact on the AIF's, UCITS's and/or the management company NN IP) selection methodology, criteria and the annual selection of Identified Staff roles, and remuneration proposals;
- remuneration decisions for NN IP Compensation Committee members.
- the annual compensation review for selected Identified Staff members, senior management and high earners, including the potential cases for holdback of deferred compensation by way of malus and or holdback;
- the total variable remuneration spent for any performance year;
- job offers for joiners and proposals for leavers exceeding certain thresholds; and
- any deviation from the minimum standards as set in the NN Group Remuneration Framework.

Additionally, NN IP operates a Compensation Committee responsible for (among others) setting, monitoring and reviewing the remuneration policies, plans and overall remuneration spend globally for NN IP. The NN IP Compensation Committee comprises the CEO NN IP, the Head of Human Resources NN IP, the Chief Finance & Risk Officer NN IP, the Head of Compliance NN IP and the Head of Reward NN IP. In addition, the NN Group Head of Reward has a standing invitation to attend all meetings.

The Compensation Committees and NN Group Supervisory Board are authorized to engage external remuneration advisors. In 2020 they made use of the services of Willis Towers Watson, and additionally NN IP made use of the services of McLagan and PwC with regards to remuneration related policies and practices (including benchmarking).

Further information regarding NN Group Remuneration Governance, including the roles and responsibilities of relevant committees can be found in the NN Group 2020 Annual Report (<https://www.nn-group.com – Investors – 2020 Annual report>).

### III. Remuneration of Identified Staff

#### Introduction

NN IP selected Identified Staff (staff whose professional activities have material impact on the risk profile of NN Group) on the basis of the Dutch Regeling Beheerst Beloningsbeleid Wft 2017 (Rbb), and Identified Staff on the basis of both AIFMD and UCITS (being staff whose professional activities have a material impact on the Dutch licensed AIF(s), and/or the UCITS and/or NN IP based in The Hague). All NN IP Identified Staff selected on the basis of Rbb 2017, also qualify as AIFMD and UCITS Identified Staff.

AIFMD and UCITS Identified Staff are selected in accordance with ESMA guidelines and a selection methodology and selection criteria that were approved by both the NN IP and the NN Group Compensation Committee.

## Other information to shareholders (unaudited)(continued)

More specifically, the assessment for material influence was done on the following basis:

- examining the potential impact on the financial, operational and reputational risks of the organisational units in scope in a way that exceeds the companies risk appetite, and/or the Performance of the AIF and/or UCITS;
- by means of the formal organisational position, including applicable governance, role and responsibilities either alone or in committees, organisational unit or as part of a department;
- in combination with the factual situation (testing actual versus theoretical), where the actual situation has been considered leading;
- taking into account controls in place, and focusing on the residual level of influence one can have, taken normal functioning of the controls into account; and
- back testing with past incidents and outcome from monitoring (ISAE3402, financial reporting risk) to establish if the controls have been working effectively or if any material influence could be exercised outside of the existing controls.

The following six groups of Identified Staff have been assessed:

- (i) executive and non-executive members of the governing body of the AIFM and UCITS;
- (ii) senior management;
- (iii) staff in control functions;
- (iv) staff responsible for heading the portfolio management, administration, marketing and human resources;
- (v) other risk takers; and
- (vi) staff whose remuneration in the previous year is as high as or higher than senior management and other risk takers.

### Performance management for Identified Staff

The performance management process for Identified Staff selected on the basis of Rbb 2017 is centrally designed and coordinated by NN Group Human Resources, and resulting rules and requirements are also to be applied to AIFMD and UCITS selected Identified Staff.

The performance management principles applied to Identified Staff ensure that there is focus on financial and non-financial performance and on leadership behavior. In addition, the company's strategy (both long and short term objectives), client interests, as well as the companies values (Care, Clear and Commit) are reinforced. The principles also create alignment with the AIF and UCITS risk profile. In addition to general performance management principles that apply to all NN Group staff, the following performance management principles apply specifically to Identified Staff in 2020:

- (i) the performance objectives include both financial and non-financial performance objectives according to the following balance: (a) for non-control functions Identified Staff a maximum of 50% financial and a minimum of 50% non-financial performance objectives and (b) for control functions: a maximum of 15% financial (e.g. departmental budget responsibility) and a minimum of 85% non-financial performance objectives linked to their control function specific role;
- (ii) control functions will only have financial performance objectives that are not linked to the performance of the business unit they control;  
and
- (iii) all performance objectives are reviewed by the Risk and Compliance functions.

For each Identified Staff member a set of objectives is defined, including details on what the individual is expected to contribute to the company's business success and how this contribution is to be achieved. The individual performance objectives must meet certain minimum standards such as to promote an open culture, clear and focused objectives and customer suitability. The individual performance objectives score is used as one of several factors that determine individual variable remuneration. The final amount of variable remuneration is also dependent on other factors such as: the overall financial affordability, the assessment of undesired risk-taking, as well as non-compliant behavior, and the outcome of an assessment of leadership behavior which may cause adjustments of the level of variable remuneration. The hierarchical manager is expected to consider risk and compliance events into the level of variable remuneration. The NN IP CompCo verifies the application of this consideration from the hierarchical manager. Risk and compliance breaches could for example entail operational incidents risks, employee conduct risk, market abuse risks, customer suitability risks, etc.

The performance assessment of Identified Staff and the consequent awarding of variable remuneration is effected as part of a multiple-year framework. As deferral periods apply to variable remuneration of Identified Staff, it is ensured that variable remuneration is "at risk" during the entire deferral period. Variable remuneration is linked to risk and non-financial performance and takes into account the company performance at group level, business line performance and individual performance. Any undesired risk taking or breaches of compliance that were not apparent at the time the variable remuneration was awarded, will be taken into account at every (deferred) vesting of variable remuneration.

## Other information to shareholders (unaudited)(continued)

### Remuneration principles and policy for Identified Staff

Variable remuneration for Identified Staff is performance-based and risk-adjusted and is partly paid upfront and partly deferred. Deferred variable remuneration is subject to the assessment of undesired risk-taking, as well as non-compliant behavior in view of past performance. If deemed necessary by the Supervisory Board, (deferred) compensation is adjusted downwards via hold back or claw back.

### Different elements of remuneration for Identified Staff

The remuneration of Identified Staff has been structured in accordance with the applicable laws and regulations. The total reward of Identified Staff consists of the following elements:

- fixed remuneration;
- variable remuneration; and
- general employee benefits, such as employer pension contributions, employee discounts on financial services, disability insurance coverage (applicable to all NN IP staff).

### Variable Remuneration awarded to Identified Staff

At least 40% of the variable remuneration as awarded to Identified Staff is deferred, and for control function Identified Staff a stricter regime applies as a minimum of 50% is deferred.

For all selected Identified Staff members, the variable remuneration comprises the following components:

- upfront cash;
- upfront Investment Entitlements, managed by NN IP (an additional retention of at least one year applies after vesting);
- upfront NN Group shares (for CEO NN IP and Member of the Management Board NN Group, and an additional retention of at least five year applies after award);
- deferred Investment Entitlements managed by NN IP (the minimum deferral period is three years, applying a tiered vesting schedule. Deferred variable remuneration vests annually in equal tranches. The first deferred portion of the variable remuneration vests in one year after the date of grant. Any vested portion of the deferred Funds is subject to an additional retention period of at least one year); and
- deferred NN Group shares (the minimum deferral period is three years, applying a tiered vesting schedule. Deferred variable remuneration vests annually in equal tranches. The first deferred portion of the variable remuneration vests in one year after the date of grant).

For all selected Identified Staff, ex-post performance assessment is carried out. The performance assessment extends beyond the date of the award of variable remuneration and continues as part of a multi-year framework of at least three to five years.

NN Group has the right to apply a hold back from any (ex-)employee, i.e., not to pay variable remuneration, in the following circumstances:

- the variable remuneration does not reconcile with the financial situation of NN Group or is not justified on the basis of the performance of the relevant business unit or the relevant employee; or
- NN Group does not comply with the relevant capital requirements applicable from time to time, which includes a significant deterioration in the financial performance of the AIF/UCITS Management Company and/or AIF's/UCITS's funds or a significant downturn in the AIF/UCITS Management Company overall financial situation; or
- NN Group's capital adequacy is insufficient as determined via the capital test; or
- the relevant staff member participated in or was responsible for conduct which resulted in significant losses to NN Group or any of its subsidiaries or affiliates; or
- the relevant staff member failed to meet the appropriate standards of fitness and propriety (bekwaamheid en correctheid), such as an oath for the financial sector, a code of conduct or other internal rules and regulations that are applicable to NN Group; or
- NN Group or the business unit in which the relevant employee works suffers a significant failure of risk management; or
- if this is required or reasonable taking into account the outcome of the reassessment procedures set out in the NN Group Remuneration Framework; or

## Other information to shareholders (unaudited)(continued)

- in the event of significant negative changes in the economic and regulatory capital base; or
- in the event of specific conduct which has led to the material re-statement of NN Group's annual accounts and/or significant (reputational) harm to NN Group or any of its subsidiaries or affiliates; or
- if any other material new information arises that would have changed the original determination of the award of variable remuneration to that individual if it were known at the time of the award; such reassessment is also based on the criteria for the original award.

A claw back of paid/vested variable remuneration from any (ex-)employee can be applied in the following circumstances:

- this is required or reasonable taking into account the outcome of the (reassessment) procedures; or
- in the event of engagement in conduct or performance of acts which are considered malfeasance or fraud; or
- in the event of specific conduct which has led to the material re-statement of NN Group's annual accounts and/or significant (reputational) harm to NN Group or any of its subsidiaries or affiliates; or
- in case the relevant staff member participated in or was responsible for conduct which resulted in significant losses to NN Group or any of its subsidiaries or affiliates; or
- in case the participant failed to meet appropriate standards of fitness and propriety, such as an oath for the financial sector, a code of conduct or other internal rules and regulations that are applicable to the NN Group; or
- a significant deterioration in the financial performance of the AIF/UCITS Management Company and/or AIF's/UCITS's funds or a significant downturn in the AIF/UCITS Management Company overall financial situation; or
- in the event of significant negative changes in the economic and regulatory capital base; or
- if any other material new information arises that would have changed the original determination of the award of variable remuneration to that individual if it were known at the time of the award; such reassessment is also based on the criteria for the original award.

### Remuneration over 2020

Over 2020, NN IP has awarded a total amount of € 97,68 mln. to all employees. This amount consists of fixed remuneration of € 76,59 mln. and variable remuneration of € 21,09 mln. Per 31st of December NN IP had 713 employees, of which 6 board members. The majority of employees spend their time on activities that are directly or indirectly related to the management of the funds. There is no remuneration in the form of carried interest.

From the above mentioned amounts, total remuneration for the board members is € 4,22 mln., of which fixed remuneration is € 2,77 mln. and variable remuneration is € 1,45 mln.

The below table presents a summary of the remuneration awarded to NN IP employees. Over 2020, the Management Company awarded remuneration above € 1mln to 2 employees.

### IV. Quantitative information

The table below provides aggregated information on the remuneration of all active staff members employed on 31 December 2020 and performing activities for NN IP International Holdings B.V. in The Netherlands during the year 2020, and includes all Identified Staff selected on the basis of AIFMD and/or UCITS.

A significant proportion of the amounts listed below can be attributed to NN Investment Partners B.V. (Management Company), as NN Investment Partners B.V. is the main operating entity held by NN Investment Partners International Holdings B.V.

Information at the level of NN Investment Partners B.V. (Management Company) and/or the AIF's/UCITS's is not available. Variable remuneration is not directly charged to the AIF/UCITS. Fixed remuneration is not charged directly except for these funds with direct costing. For these funds we use an allocation key to charge fixed remuneration.

In addition a table with information on remuneration for the performance year 2019 is included.

## Other information to shareholders (unaudited)(continued)

**Aggregated fixed remuneration and variable remuneration for the performance year 2020**

Fixed and variable remuneration awarded in relation to the performance year 2020			
Amounts in EUR 1,000 and gross	Identified Staff qualified as Executives	Other Identified Staff (including Senior Management)	All staff – excluding Identified Staff
Number of employees (#)	6	29	678
Fixed remuneration (1)	2,769	6,810	67,017
Variable remuneration (2)	1,454	3,650	15,983
Aggregate of fixed and variable remuneration	4,223	10,460	83,000

Note 1) Fixed remuneration per ultimo 2020 for contractual working hours. The Fixed remuneration includes collective fixed allowances, which includes elements such as holiday pay, and pension allowance and excludes benefits.

Note 2) Variable remuneration includes all conditional and unconditional awards in relation to the performance year 2020 as approved by the relevant committees and authorized per February 15, 2021. This includes all payments to be processed through payroll per March/April 2021, upfront NN Group shares and NN IP Investment Entitlements (Fund-of-Fund with a one year holding period) as awarded to Identified Staff as well as all conditional deferred NN Group shares and NN IP Investment Entitlements. A reference to the allocated Funds is not available.

**Aggregated fixed remuneration and variable remuneration for the performance year 2019**

Fixed and variable remuneration awarded in relation to the performance year 2019			
Amounts in EUR 1,000 and gross	Identified Staff qualified as Senior Management (including Executives) (3)	Other Identified Staff (excluding Senior Management)	All staff – excluding Identified Staff
Number of employees (#)	8	12	640
Fixed remuneration (1)	2,997	3,089	61,437
Variable remuneration (2)	1,294	1,540	15,032
Aggregate of fixed and variable remuneration	4,291	4,629	76,469

Note 1): Fixed remuneration per ultimo 2020 for contractual working hours. The Fixed remuneration includes collective fixed allowances, which includes elements such as holiday pay, and pension allowance and excludes benefits.

Note 2): Variable remuneration includes all conditional and unconditional awards in relation to the performance year 2020 as approved by the relevant committees and authorized per February 21, 2020. This includes all payments to be processed through payroll per March/April 2021, upfront NN Group shares and NN IP Investment Entitlements (Fund-of-Fund with a one year holding period) as awarded to Identified Staff as well as all conditional deferred NN Group shares and NN IP Investment Entitlements. A reference to the allocated Funds is not available.

Note 3): The category Senior Management contains the compensation of all 6 NN IP statutory directors.

**Remuneration information third parties**

NN Investment Partners B.V. (NN IP) has (partly) outsourced its portfolio management activities to third parties. For each of these parties a Portfolio Management Agreement (PMA) has been arranged. The PMA guarantees efficient and effective services in accordance with the set agreements with these third parties. The services offered by these third parties based on the PMA are evaluated annually by NN IP.

The transparency that NN IP maintains with regard to the applied remuneration policy also includes transparency regarding the remuneration policy of third parties who carry out portfolio management activities for NN IP. By doing this NN IP is aligned with the guidance from the European regulator (ESMA).

NN IP annually requests information from third parties in order to be able to evaluate the services and information about the applied remuneration policy by the third party is included in this request. For more information about the remuneration policies of these third parties, please refer to: <https://nnip.com> – About – Policies and governance – Remuneration policy - Remuneration information delegates.
